## GIUSEPPE FERLAZZO

**GOALS** I wish to get a job in IT world because i learned a lot during the last year about web development, and i'm sure not only to improve fastly my skills, but also be able to jump in blockchain smart contracts world soon.

**SKILLS** I present my self like a good to code guy, not only the ones you can see in my web-portfolio, but i think i can understand and learn a lot of technology to make me a more independet developer during the time. I find in these technologies not only the way to make important apps, but also the possibility to automatize many of the thinkgs of everyday.

**EXPERIENCE** My previous work experiences were manual jobs, slowly i learnt web development and writing smart contracts, and improving i'm sure to make due to that a stable income.

---

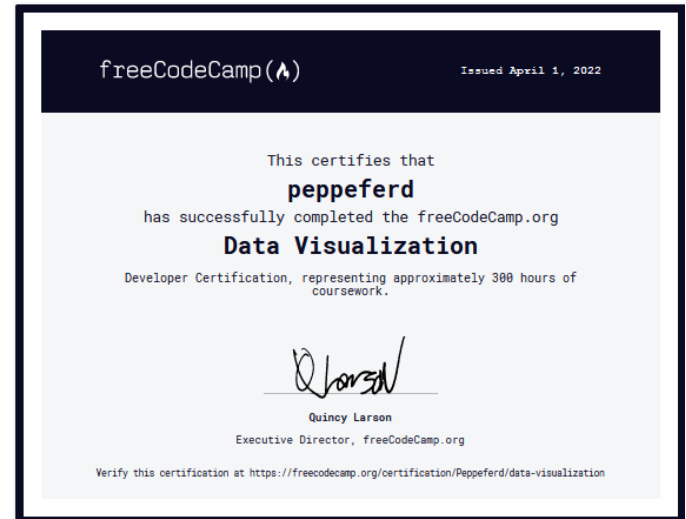

### FORMATION

I attempted High School and graduated in scientific studies, then i left without attempting university fully and started working. Now i'm expanding my actual knowledge with a blockchain course at Digital School, sure that i'll soon find what i'm looking for.

---

**COMUNICACION** I love to comunicate with everybody, i think all of we can learn from everyone so i like to confrontate especially with who i think is better than me, because in this there are more opportunities to grow up. But i like also communicate with you i think i can't get anything from, because improving needs for me to break every possible limit.

Here i show you some of my certifications earned during my studies:

N. certificato: UC-402ea2ec-6e52-4b06-bb37-de0d7dc6e408  
URL certificato: ude.my/UC-402ea2ec-6e52-4b06-bb37-de0d7dc6e408  
Numero di riferimento: 0004

CERTIFICATO DI COMPLETAMENTO

# Full Stack Web & Mobile App Development | Mern Stack Project

Insegnanti **Oak Academy, OAK Academy Team**

**Giuseppe Ferlazzo**

Data **28 Marzo 2023**

Durata **32.5 ore totali**
